

Reactions of Metals

Complete the following word equations:

1. Zinc + Hydrochloric Acid \longrightarrow + Hydrogen
2. Magnesium + Sulphuric
Carbonate Acid \longrightarrow + Water + Carbon
Dioxide
3. Copper Oxide + Nitric Acid \longrightarrow + Water
4. Sodium + Hydrochloric
Hydroxide Acid \longrightarrow + Water
5. Sulphuric Acid + Calcium \longrightarrow + Hydrogen
6. Lithium Oxide + Sulphuric Acid \longrightarrow Water +
7. Nitric Acid + Potassium Hydroxide \longrightarrow + Water
8. Hydrochloric + Copper \longrightarrow Carbon + Water +
Acid Carbonate Dioxide
9. + \longrightarrow Magnesium Nitrate + Water
10. + Aluminium Oxide \longrightarrow Aluminium Sulphate +
11. + \longrightarrow Calcium Chloride + Water
12. + \longrightarrow Water + Carbon + Sodium
Dioxide Nitrate
